

Subject: Office of Independent Oversight's Office of Environment, Safety and Health Evaluations Activity Report on its Participation in a Review of Selected Aspects of Nuclear Safety at the Hanford Site Tank Farms, December 6-10, 2010

The U.S. Department of Energy Office of Independent Oversight, within the Office of Health, Safety and Security, participated in an Office of Environmental Management Office of Standards and Quality Assurance, EM-23, review of Specific Administrative Controls (SAC). The EM-23 review included selected Office of River Protection programs at the Hanford Site. During the review, Independent Oversight personnel reviewed a few of the SACs applicable to the Tank Farms, which are under the auspices of the Office of River Protection. The results of the review are documented in an EM-23 SAC review report.
